Alicante, 6 February 2026

ANNOUNCEMENT – OTHER RELEVANT INFORMATION – VANADI COFFEE S.A.

Dear Sirs,

Pursuant to the provisions of Article 17 of Regulation (EU) No 596/2014 on market abuse and Article 227 of Law 6/2023, of 17 March, on Securities Markets and Investment Services, and related provisions, as well as BME Growth Circular 3/2020 of BME MTF Equity, we hereby inform you of the following information relating to the company VANADI COFFEE S.A. (hereinafter the "Company").

The Board of Directors of the Company, at its meeting held on 5 February 2026, approved the proposal of KRAKEN as one of the Bitcoin custodians for its strategic treasury and as partner for transactions in the cryptocurrency market, which will give Vanadi continuous and permanent access to the Bitcoin markets, operating 24 hours a day, 7 days a week.

This agreement will allow the start of the evaluation of the administrative process for tokenising the company's shares on KRAKEN's share tokenisation market.

In compliance with Circular 3/2020 of the BME Growth segment of BME MTF Equity, it is expressly stated that the information communicated herein has been prepared under the sole responsibility of the Company and its directors.

We remain at your disposal for any clarification you may require.

Yours faithfully,

Salvador Martí Varó
Chairman of the Board of Directors

Vanadi chooses Kraken as its trading and custody partner for its Bitcoin treasury, laying the foundations for a future tokenisation of shares.

● The agreement will give Vanadi continuous and permanent access to the Bitcoin markets, operating 24 hours a day, 7 days a week.

Alicante, 06/02/2026— Vanadi, a Spanish company specialising in the strategic management of Bitcoin treasury, has chosen Kraken, one of the oldest, most liquid and most secure cryptocurrency platforms in the world, as its trading and qualified custody partner.

The agreement will give **Vanadi continuous and permanent access to the Bitcoin markets**, operating **24 hours a day, 7 days a week**, a distinctive feature compared with traditional financial markets.

With this agreement, Vanadi will acquire and hold bitcoin in custody for its strategic treasury through Kraken, taking advantage of its deep liquidity, transparent execution and secure and scalable infrastructure. These capabilities will allow Vanadi to manage its treasury continuously and respond in real time to market movements, macroeconomic events and changes in liquidity.

Kraken brings more than 14 years of experience in building crypto-native infrastructure and capabilities used by institutional clients globally. Companies can benefit from integrated trading, financing and custody capabilities, backed by 24/7 customer support. Kraken's institutional custody offering, operated by its European entity regulated under MiCA, supports active operational workflows while maintaining strict controls around asset segregation, transparency and security.

By leveraging Kraken's deep liquidity and secure infrastructure, Vanadi will be able to execute transactions at any time and use Bitcoin as a dynamic treasury asset. The agreement also lays the foundation for Vanadi to explore additional digital asset initiatives, including tokenised shares.

Kraken is a leading provider of euro-denominated liquidity, and this partnership will strengthen its commitment to the Spanish market. The agreement reflects the continued convergence of digital assets and traditional financial markets, together with the maturing of regulatory frameworks and growing institutional participation across Europe.

About Vanadi

Vanadi is a Spanish company specialising in the strategic management of Bitcoin treasury, focused on institutional investment, transparency and regulatory compliance, with the aim of positioning Spain as a relevant player in the global digital economy.

On 23 September 2025, the Extraordinary General Shareholders' Meeting of Vanadi Coffee approved an investment of up to one billion euros for the acquisition of Bitcoin, as part of the company's new corporate strategy. In this new phase, the purchase and custody of Bitcoin becomes the central pillar of its business model.

Vanadi thus becomes the first listed company in Spain to incorporate this digital asset into its corporate balance sheet.

This decision is based on the conviction that Bitcoin represents a global, liquid and decentralised store of value, with behaviour uncorrelated with traditional financial assets. For Vanadi, Bitcoin acts as a strategic treasury management instrument, with the aim of improving diversification, providing protection against inflation and generating long-term value for shareholders.

The plan will be implemented under a robust governance framework, with periodic transparency reports and full compliance with applicable regulations, reinforcing Vanadi's commitment to responsible financial innovation.

About Kraken

Founded in 2011, Kraken is one of the most established and secure cryptocurrency platforms in the world. Kraken clients trade more than 600 digital assets, traditional assets such as US futures and US-listed stocks and ETFs, and 6 different national currencies, including GBP, EUR, USD, CAD, CHF and AUD. Trusted by millions of institutions, professional traders and consumers, Kraken is one of the fastest, most liquid and highest-performing trading platforms available.

Kraken's suite of products and services includes the Kraken App, Kraken Pro, the Krak App, Kraken Institutional, Kraken's onchain offerings and the retail trading platform Ninja Trader. Through these offerings, clients can buy, sell, stake, earn rewards, send and receive assets, hold their assets in custody and access advanced trading, derivatives and portfolio management tools.

Kraken has set the industry standard for transparency and client trust, and was the first cryptocurrency platform to carry out a Proof of Reserves. It complies with the regulations and laws applicable to its business while actively protecting client privacy and maintaining the highest security standards.
